FOUND HER FOLKS

Story in Astorian Located Missing Relatives.

GRATITUDE OF A WOMAN

Thanks Astorian for the Termination of a Search That Has Lasted For Over Twenty Years Throughout the Whole Country.

A few weeks ago the Astorian received a letter from Anna F. Gardner of Hartford, Conn., who has for 20 years been trying to locate her father and relations, whom she had never seen, having been abandoned in the east when a baby, and left there with her mother, who died soon afterward.

"Editor Morning Astorian: "Dear Sir—Kindly accept my gratitude for your efforts in aiding me in my search for my father, Christopher C. Stream. It resulted in my hearing from several of that name, as well as from others whose interest was aroused. From one of these I received a clipping of the article published in your paper which I appreciate very much, and will always keep in memory of your kindness. "I believe I have at last located my relatives at Dilley, Ore., as a family living there answers the description. If so will be glad to let you know. Believe me. Every gratefully yours. "ANNA F. GARDNER."

PRICE WAR ON.

Pottery Men After the Small Manufacturers.

New York, Jan. 2.—The eastern pottery manufacturers are, according to a dispatch from Trenton, N. J., about to start a price-cutting war which promises to be one of the fiercest ever waged in that trade and involves the question of supremacy between eastern and western manufacturers. Prices will, it is predicted, be very much reduced within a week.

It is reported that the East Liverpool (O.) pottery manufacturers will meet the reduction. Smaller pottery manufacturers who will not go into an agreement are said to have been the cause of the trouble.

BIG STAKE EVENTS.

Coney Island Jockey Club Hangs Up \$263,500.

New York, Jan. 2.—Announcement has been made of the Coney Island Jockey Club stake and handicap events for the coming racing season, entries for which are about to close.

They aggregate in value \$263,500. With other events the aggregate is raised to \$350,000.

There are a number of stakes which close later in the season and five overnight sweepstakes, which are added each day to the program that do not figure in this sum. On the face of these figures Sheepshead Bay will distribute the largest sum that has ever been given away by any one club in this country.

Will Lighter Cargoes.

Portland, Jan. 2.—J. H. Kelly, dock agent here for the Harriman lines, thinks the only practical manner in which ocean-going steamers can be loaded here without shifting through the bridges is to use proper lighters. With a strong current running, as is the case during the winter and spring freshets, more or less danger is attached to the labor of moving the liners from the lower harbor above the bridges, and, Mr. Kelly's idea is to lighter all cargo to the ship rather than have her move so often. This would also prove advantageous, he thinks, in discharging, as the bulk of the cargoes are for rail points. At the present time there are no lighters in service that would answer the purpose.

Sickening Shivering Fits

of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after-effects. E. S. Munday of Henrietta, Tex., writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At Chas. Rogers' drug store; price 50c, guaranteed."

Schlitz's beer made Milwaukee famous, and is having the same effect on the Grotto. Nothing better on the market.

TO WATCH ECLIPSE

England and United States Join in Event.

LABRADOR PLACE SELECTED

Duration of Total Obscurity of Sun's Face Longer There by Two Minutes Than Elsewhere on This Continent—Expedition Large.

Ottawa, Ont., Jan. 2.—Arrangements are now being made through the Newfoundland government for the conveyance of British and American astronomical expeditions to Labrador next summer for the purpose of observing the total eclipse of the sun on August 30, 1905. The matter has to be arranged in advance for the coast is now blockaded with ice and will not be free until July, leaving only a few weeks in which to transport the parties to the far northern region and enabling them to install all the observation points selected with their telescopes and other instruments.

The eclipse can be observed most advantageously in Labrador, because the period of eclipse will last longer there (a little over two minutes) than any other place on this continent.

Undine Laid Up.

Portland, Jan. 2.—Steamer Undine of the Kamn line, did not go out on her run to Astoria this morning, because of a defective boiler. The steamer Tahoma was dispatched to the city by the sea in her stead. The Undine will be laid up several days for repairs. It is not definitely known when the Lurline will be in shape to resume operations on the Lower Columbia.

SKIN DISEASES

Altoona, Pa., June 30, 1903.

I was afflicted with Tetter in bad shape. It would appear in blotches as large as my hand, a yellowish color, and scale off. You can imagine how offensive it was. For twelve years I was afflicted with this trouble. At night it was a case of scratch and many times no rest at all. Seeing the good the medicine was doing a friend who was taking it for Eczema, I commenced it, and as a result the eruption began to dry up and disappear, and to-day I am practically a well man. Only two tiny spots are left on the elbow and skin, where once the whole body was affected. I have every confidence in the medicine, and feel sure that in a short time these two remaining spots will disappear. S. S. S. is certainly a great blood purifier, and has done me a world of good. I am grateful for what it has accomplished, and trust that what I have said will lead others who are similarly afflicted to take the remedy and obtain the same good results that I have.

125 East Fifth Ave. JOHN F. LMAR.

While washes, soaps, salves and powders relieve temporarily, they do not reach the real cause of the disease. The blood must be purified before the cure is permanent. S. S. S. contains no potash, arsenic or mineral of any description, but is guaranteed purely vegetable. Send for our book on the skin and its diseases, which is mailed free. Our physicians will cheerfully advise without charge any who write us about their case.
